BIARRITZ

21 SEPT.

The year '2012' is displayed in a stylized, 3D block font. The digits '2', '0', and '2' are green, while '0' and '1' are white. The digits are arranged in a slightly staggered, overlapping manner.

2012

This year ushers in a major event in our business:

25 years in existence !

Thanks to you, we are placed today amongst the major brands in the dental implants sector in France and abroad. We are especially proud this year to place this logo.

We'll blow out the candles on *the 21st September 2012* in a town with magical atmosphere: **BIARRITZ**. You are cordially invited to this event, which promises to be instructive, enriching and not to be missed.

The contributors to this conference are all well-known and acknowledged specialists who will present their line of expertise on the theme of implantology.

This celebration will also be the occasion for us to remember what assured the legitimacy and long-lasting worth of Biotech: innovation, technicity and simplicity in all our products and systems.

Rendez-vous on 21 September 2012 !
